Why is the India scale story interesting for our whole network?

- The **population** of India is comparable to the population of Africa (India - **1.4 B**, Africa - **1.2 B** (LatAm is **650M**)
- The **population** of one state - Uttar Pradesh - (**232 M**) is comparable to the population of Brazil + Ecuador (**234 M**)
- The **GDP** of one state - Maharashtra - (**USD 425 B**) is more than the GDP of Colombia (**USD 314.5 B**)
- We have over **2000** **ethnic groups**
- We are home to over **121** **languages**, and **19,500** **dialects** - which change every **50-100 KM** (30-60 Miles)
