Set-Up Instructions

1. Choose a hosting platform for your site
2. Choose and reserve a domain name (make sure that the URL you select is concise and relevant)
3. Download the theme zip from the Drive link and set-it up on the hosting platform you've each selected
4. Replace the server's plugins folder with the one in the plugins zip from [this Drive link](#)
5. Perform a "search and replace" function within the codebase and replace the url "goyncom.wpengine.com" with the URL you've chosen
6. Follow the [User Guide HERE](#) to modify and update content, layout, images etc.

Additional Tips and Resources

1. Consider applying for the [Google AdGrant Program](#). If eligible, you can receive up to \$10,000 in free advertising to your site
2. It is highly recommended to hire a developer for the initial set-up of the site to ensure full and smooth functionality.
3. Collaborate with other communities to get an idea of the different ways you can leverage the community site to meet the needs of OY
